

★ Perform **10** repetitions of each exercise, **3** times a day. ★

1 SHOULDER FLEXION

- Sit or stand up tall.
- Lift your arm straight forward and up toward the ceiling as high as comfortable, then slowly lower.

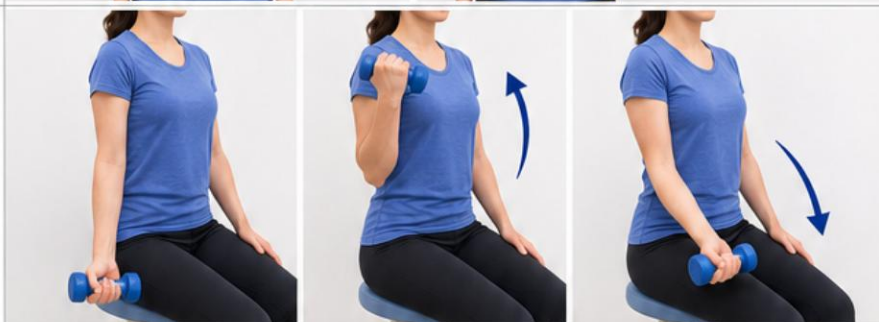

2 SHOULDER ABDUCTION

- Sit or stand up tall.
- Lift your arm out to the side and up toward the ceiling as high as comfortable, then slowly lower.

3 ELBOW FLEXION / EXTENSION

- Start with your arm straight by your side, palm facing up.
- Bend your elbow to bring your hand toward your shoulder, then slowly straighten your arm.

4 WRIST FLEXION / EXTENSION

- Rest your forearm on a table with your hand and wrist over the edge, palm down.
- Bend your wrist down, then up as far as comfortable.

5 OPENING & CLOSING HANDS

- Open your hand wide, spreading your fingers.
- Close your hand into a fist, then open again.

6 SQUEEZING HANDS

- Squeeze a soft ball or foam ball in your hand.
- Hold for a moment, then release.

DO 10 REPS OF EACH EXERCISE, 3 TIMES A DAY.

Be consistent and move slowly.

Stop if you feel pain and contact your healthcare provider.
